

TIM WEBSTER

WONDERLANDS CRISTO REDENTOR

You are cordially invited to the opening of

WONDERLANDS CRISTO REDENTOR

Thursday 12 March 6–8pm

In the second of a series of related works, Wonderlands considers how iconic landmarks of a scale too large to be encompassed in a single viewpoint are experienced only as durational fragments.

Through photographs and a forty screen video installation, Tim Webster creates a fractured representation of two such places, playing on our experience of memory and our memory of experience.

12 March to 28 March
